wind discs

Electricity is not always necessary to produce radiant

dazzle. Each Becker Wind Disc composition can be made to your specifications. Choose your color and size, then pick one of our pre-designed bows, candy canes or gift boxes or have us construct your one-of-a-kind shimmering logo or design. Projected or ambient light from the outdoors will make your custom piece glisten and dance through the day and night. A light breeze from a fan or air-conditioning is sufficient to activate indoor luster too.

custom santa sets

A single small ornament pulled from a dusty box packed away in an attic, storeroom or basement can evoke warm, wonderful, vivid recollections.

Its contribution to a fully decorated splendid Christmas tree inspires oohs and aahs from those fortunate enough to participate. Members of The Becker Group family have enjoyed adding sparkle to public venues throughout 7 decades of holiday wonder, providing fond memories to millions.

Though we don't bring you Santa, we are the folks to turn to when you need somewhere for him to visit with your guests. Whether indoor or out, our Creative Team will custom design your Santa Reception area. We accommodate every budget and every space, working in tandem with your team to conceive and produce the exact ambiance for your clients. We guarantee a magical holiday!

Attract crowds from miles around with a Becker Group Tower Tree.

The exclusive Eco Pine Tower Tree has a more slim-line appearance than our ever-popular Traditional Pine Tower Tree. Constructed with the same attention to detail and with the same durable rings, you'll be amazed by how natural it looks. This design element is realized because of the 8' Tree Top Adapter, which allows the tree to grow closer to 2:1 ratio as you add more rings to the base. Our foliage has two different shades of green and alternating tapered tips to give it the look of an authentic natural pine tree. A unique feature is the bark-like brown stem for each branch which enhances the natural appearance. The Eco Pine Tower Tree package arrives with all the necessary hardware and components for installation. As big or small as you want.
